

2nd of April 2020

Dear Parents,

We send to you new material for creative activities.

Specifically, in the LANGUAGE lesson, we attach the following:

- 1. Pictured stories from the book of Gkonias and Raptopoulos.** Your child can look at the pictures (from the left to the right and according to the numbers) and tell the story. Then, they can think of a title for the story, write on a paper the story "in their own letters" (that means, as they wish, either letters, lines, or round) and draw something relevant.
- 2. Clippings-pictures with protagonists from fairy tales**
Kids can make stories by looking at the pictures one by one. The pictures can be put in different order, resulting in many different stories. They can then give a title, write on a paper the story "in their own letters" (that means, as they wish, either letters, lines, or round) and draw something relevant. (You can use 2, 3, or more pictures each time)
- 3. Finally, the presentation with subject "The improvement of reading ability, through the narration and editing of fairy tales at home", where you can find storytelling activities for your children. The particular presentation was planned to be shown in a speech at school, but, based on current coronavirus data, this is not possible.**

Children, You can send to us the stories you created and if you would like you can request to load these to our website so your your friends can read !!
